# STATISTICS OF THE CONGRESSIONAL AND PRESIDENTIAL ELECTION OF NOVEMBER 6, 1928

Showing the Highest Vote for Presidential Elector of Each Political  
Party, the Vote for Each Nominee for United States Senator,  
and for Each Nominee for Representative to the Seventy-first  
Congress

IMPORTANT.—February 15, 1929.—Prior editions of this pamphlet contained  
figures received direct from the several State authorities showing the popular vote for  
presidential electors, which, upon comparison with the figures reported in the  
certificates of such vote transmitted by the governors of each State to the Secretary  
of State of the United States, pursuant to act of Congress of May 29, 1928, and by  
him transmitted to Congress, revealed discrepancies which in this, the final edition,  
have been reconciled and the grand totals corrected accordingly.

the House of Representatives]
